*Benefits reported from the 2021 InRule User Community Survey

InRule Technology® is an AI decisioning company providing integrated decisioning, machine learning and process automation software to the enterprise. By enabling IT and business leaders to make better decisions faster, operationalize machine learning, and improve complex processes, the InRule® **AI Decisioning Platform** increases productivity, drives revenue, and provides exceptional business outcomes. More than 500 organizations worldwide rely on InRule for mission critical applications. InRule Technology has been delivering measurable business and IT results since 2002.

InRule puts the power of automation into the hands of those best informed to use it.

Our unique, wholistic, human-in-the-loop solution delivers decision-automation, process-automation and machine-learning capabilities. Our powerful, plain-language AI tools equip team members to decide better, predict more accurately and perform at their highest level.

Empowering Organizations Through No-Code, AI-Powered Automation

DECISION AUTOMATION empowers non-technical subject matter experts to author, test, deploy, analyze and manage complex business rules and decision logic, all without relying on IT staff.

PROCESS AUTOMATION facilitates digital transformation by imposing structure and compliance to repetitive, error-prone functions, consolidating legacy data sources and freeing team members to work with joy.

MACHINE LEARNING provides detailed insights, actionable predictions and key recommendations with an easy-to-use workbench — all without code, and with detailed factors behind every single prediction.

INRULE

SUCCESS STORIES

AON EXCELS THROUGH AUTOMATION.

"It takes an experienced programmer 120 to160 hours to develop decision logic. An actuary, using InRule, can do it in two days." –Aon underwriter

One of the world's leading providers of risk-management services, Aon sought to add automation support to their proprietary platform. InRule delivered a seamless, no-code AI solution enabling policy-line experts to author and deploy decision logic easily and instantly through their purpose-built workflow.

LOAN DEPOT PROVIDES FASTER MORTGAGE ORIGINATION.

"InRule has enhanced our loan origination application and allowed us to service more customers while providing better service." –Mark Ramirez, Director Software Development

The second largest non-bank lender in the U.S. developed a self-service loan origination application for faster and more competitive products for customers. Loan Depot business users are now empowered to manage decision logic for loan applications to remain competitive and compliant.

OKLAHOMA HCA LAUNCHES FIRST REAL-TIME ELIGIBILITY.

"We changed how Medicaid works. Soon we can change the way government works." –IT Manager, Oklahoma Healthcare Authority

With one of the country's highest rates of uninsured citizens, Oklahoma responded to its care crisis with AI. The Oklahoma Health Care Authority (OHCA) turned to InRule for human-in-the-loop decision automation that would allow administrators to retain complete control. Today, Medicare applicants can receive instant approval of vital benefits 24/7, instead of having to wait 30 days or more. And the state enjoys $18 million in annual savings.

GRANNGÅRDEN CLAIMS NEW EFFICIENCY.

"Today, we enjoy the confidence that our claims data is complete and correct." –Åke Wallin, Process Manager, Business Development

For Granngården, a long-established Swedish home and garden chain, as with many retailers, as major challenge was timely claims reimbursement and resolution. Through InRule Process Automation, they've completely automated claims management. The company eliminated human effort and errors, and realizes ongoing savings, happier staff and more satisfied customers.
